CONVENIENCE AND SIMPLICITY

A Regence Medicare Advantage Plan combines all of the benefits of Original Medicare Parts A (hospital) and B (physician), and in some cases, Part D prescription drug coverage into one easy-to-use plan. You also get extra benefits and programs beyond what Original Medicare has to offer. You access all your benefits with one member identification card and virtually no paperwork.

Flexibility and freedom of choice

With a Regence Medicare Advantage PPO plan, you have the freedom to see any provider across the United States with no referrals. Having the flexibility to access care when and where you need it is one of the many advantages of being a member of Regence BlueShield of Idaho.

Our plans have the benefits you need to keep yourself healthy with no medical deductible and low copays. Looking for great value? **Regence MedAdvantage + Rx Classic**, our most popular plan, gives you the most important benefits of our PPO plans for one low monthly premium.

WE HAVE YOU COVERED

across the country and around the world!

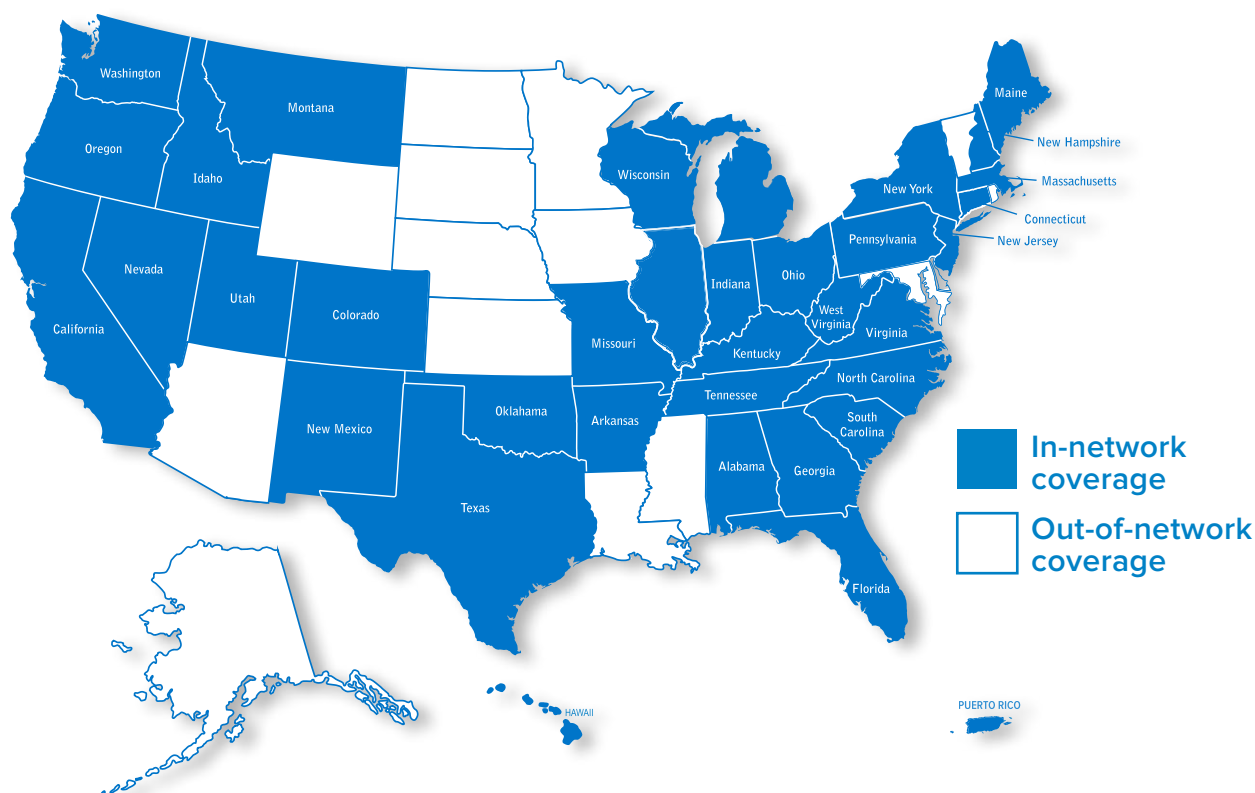

Travel the world with complete peace of mind.

The BlueCard Worldwide® program gives you access to urgent and emergency medical services in more than 200 countries and territories around the world. When you arrange cashless access with a participating provider or hospital through the BlueCard Worldwide Service Center, you'll only pay the out-of-pocket expenses (copays and coinsurance) that you would normally pay for urgent and emergency care under your PPO plan. Part D prescription drug coverage is not available outside the United States and its territories.

Get in-network benefits across the country—with the Blue Medicare Advantage PPO Network Program.

Regence PPO plan members can see any Medicare-contracted provider anywhere in the United States. When traveling outside your local service area, you can still get in-network benefits by seeing contracted Medicare Advantage PPO Blue Cross® and/or Blue Shield® providers through the Blue Medicare Advantage PPO Network Program.

Finding a Blue Medicare Advantage PPO provider is easy. Download the Blue National Doctor & Hospital Finder App at bcbs.com/mobile, or use the National Doctor and Hospital Finder at provider.bcbs.com.

You pay only two times your monthly copay for a three-month supply of drugs on Tiers 1, 2 and 6; drugs on Tiers 3 and 4 are only two and a half times your monthly copay.

\$0 Select Care drug copay.

Tier 6—Select Care drugs—are medicines that provide the best value for the treatment or prevention of many conditions. These generic drugs have been shown to be clinically effective and low-cost. They are available with no copay and no deductible.

How we cover medications

We organize covered prescription medications into six tiers, and a copay or coinsurance is assigned to each tier. What you pay depends on which tier your medication falls into.

The formulary

Our list of covered brand-name and generic prescription medications is selected and regularly reviewed by a committee of doctors and pharmacists. Formulary medications are chosen for effectiveness, value and safety—not just price.

Save with generics

Generics typically cost a lot less than brand-name medications—and work just as well. So ask your doctor if a generic version of your medication is right for you.

Prior authorization

Some brand-name medications require prior authorization. Generics typically don't require prior authorization, so switching to a generic can eliminate the need for review. If you need to obtain prior authorization, your doctor or pharmacist can call or fax in the request.

Visit regence.com/medicare to:

- ▶ Learn about your medication choices
